EDUCATION

Bachelor's degree in computer science

Faculty of Computer and Information

Menofia, Egypt

📅 2018 - 2022

EXPERIENCE

Frontend Developer ReactJS

Freelancer

📅 Jan 2022 - June 2022

- Built web applications for different clients around the world and fixed bugs on an active websites

PROJECTS

- **MyReads(React.js)** : MyReads is SPA for a book library. It contains 3 shelves each shelf includes some books which the use can read, update, delete or move it to another shelf.
- **Starred Github Repos(React.js)** : I worked with an API that gives access about Github repositories. I built a search bar,I also could achieve adding navigation to evolve user experience.
- **News Blog** : I built this blog with vanilla javascript and SASS. It has different pages, auto slider, different categories each has info about articles you can choose one. Once click on an article, you can view it in another page.
- **Crazy Restaurant** : A landing page built with HTML,CSS, javascript and SASS. Consists of multiple sections each represent some info or instructions to the user. Food menu the client can choose his meal and so on.
- **Portfolio** :
